

BUDINA ABORIGINAL CORPORATION.

12/12/2018

THE YEARS EVENTS.

March 2018 – All the BAC directors attended the YMAC office for a 2 day corporate governance course.

June 2018 – The directors of BAC attended the National Native Title Conference held in Broome.

August 2018 – Clive and Scott attended a boundary workshop to progress BAC's 2nd claim area.

September 2018 – BAC held their first AGM in Perth at the YMAC office.

November 2018 – Clive and Scott attended a Native Title Operations and Management training course.

RECENT ACTIVITY.

This year the BAC board of directors has been notified by YMAC of 2 new exploration tenement applications being submitted by 2 separate entities.

The BAC directors feel that YMAC are taking all the proper steps and following the correct processes and procedures to ensure a beneficial decision is met in regards to any activity that may arise from these ventures.

Looking to a cleaner, brighter future.

During the week of training that was undertaken by Clive and Scott Lyndon in Perth which included representatives from the Nyoongar, Western Deserts and Karajarri communities, one topic that caught the attention of everyone was the possible development of a solar farm. The idea of building a solar energy hub on Budina country is one that has been bounced around by the directors in earlier meetings and discussions throughout the year, but where do we start? Does our community support us in following this idea? And do we have the capacity to start the wheels turning? These are the questions that will be addressed in the near future.

“There is clearly an interest from a lot of different parties regarding solar energy and the Budina people would benefit greatly through job creation, a revenue stream to develop healthcare and hardship resources, education/scholarship programs and the development of an on country homestead.” –

Scott Lyndon, Director.

Scott and Clive with their certificates.

OTHER NEWS.

Also this year, some of our members were treated to an on country excursion courtesy of Yorgum. Here's some moments that were captured during the trip.

IN THE NEAR FUTURE.....

The BAC board of directors has instructed YMAC to begin designing a website for the corporation, this will help with the sharing of information and help keep all of our members and interested parties informed about our activities. BAC plan to have a finished product by early to mid-next year.

There will also be an enquiries email address added to the Budinacorp.com email domain in the new year to help with any questions that members may have. Note; Some information may not be available or allowed to be disseminated to members or the public, please be respectful of BAC's decision if this is ever the case.
